- Ichio Usui was born in Yamagata and raised in Hyogo, Japan in 1983. He graduated Japan Institute of Photography and Film. He is a professional photographic artist based in Japan.
- He had liked writing and drawing a picture since he was a little, so he had traveled around to draw pictures for two years. Then he had worked as a system engineer at System Integrator. While he changed the job and started working as a manager at a IT company, he started taking photographs. After that, he attended a special photograph school and learned about photograph in earnest while working. He started his career as a photographer after graduating from school.
- Using photography as his main medium, he has been creating works on the themes of "life and death" and "the cycle of life." Also, he has worked together with his wife as "Chika & Ichio Usui" since 2016.
